HUNTERS EDGE™

ONLY 20-22 OUNCES.
UP TO 8X STRONGER THAN WOOD.

Evolutionary Design. Graphite Engineered.

Weighs only 20-22 oz, depending on your action. Compare this to 2 1/2 lbs for wood.

100% graphite construction.

CNC inletted for all Remington 700 or Model 7 actions, including short, long, left and right-handed.

Up to 8 times stronger than wood.

Exterior is painted in your choice of colors (included).

Pachmayr 1/2" Decelerator recoil pad included.

MCMILLAN BREAKS THE WEIGHT BARRIER FOR THE ULTIMATE ULTRALIGHT RIFLE.

The same McMillan graphite ultralight technology that is sweeping the benchrest competition circuit is now available to hunters. Made of 100% graphite, the new Hunters EDGE™ weighs only 20-22 ounces, compared to 2 1/2 pounds for a typical wood stock. Yet the Hunters EDGE is up to 8 times stronger than wood. And of course, it comes with the famous McMillan lifetime guarantee.

Stop hauling around heavy lumber. Place your order now and put together your ultralight project in time for your next hunt.
