

## **DATA SUMMARY**

### **McMILLAN TACTICAL**

### **TAC-338**

## EQUIPMENT INTRODUCTION

### PURPOSE

The McMillan Tactical Sniper Rifle System provides specially trained personnel with the capability to effectively perform the tasks of a sniper, for combat and internal security operations. The rifle system can also be used in both advanced regional and national sniper competitions.

### DESCRIPTION

The McMillan Tactical Sniper Rifle System is a heavy barrel, manually operated, bolt action, with 6 shot capacity. It is fitted with a McMillan Fiberglass Stock butt spacer system and integral cheek piece.

The system utilizes a Remington type trigger set to 3.0 lbs. The McMillan barrel is a match grade stainless steel barrel. All metal parts are finished with a Dura-Coat metal finish with NP3 Electroless Nickel with Teflon or Black oxidized on the Bolt Assembly.

The McMillan Tactical Sniper System is capable of 1/2 MOA in the hands of qualified snipers with applicable match ammunition.
